Payment Options:	C.O.D, C.O.D. Post or Pre Payment with Cheque, Credit Card or EFT (Bank Details Below)	
Bank Details: (EFT Payments)	Bank	- St. George Bank
	Account Name	- Food Hardware
	Account No.	- 204338628
	BSB	- 112-879
Delivery:	We deliver within the Sydney Metro area. Cost of delivery depends on size of order. For deliveries outside Sydney, freight is quoted before despatch of goods or sent by the transport company of your choice	
Prices:	Due to circumstances beyond our control, prices may change without notice and we cannot guarantee all products will be in stock. Imported goods may not be the same as advertised but we will endeavour to stock a similar product. Any prices listed or quoted DO NOT include GST	
Returns: (Stock items only)	Returns must be arranged within 7 days of delivery and must be in unused condition. If return is not made within agreed time, a 20% restocking fee will apply. Returns may be refused and is left to the discretion of FOOD HARDWARE-BAKERY SERVICE	

Family Owned and Operated Since 1985

Manufacturers, Distributors & Agents for the Bakery & Catering Industry

[Home](#) | [Products](#) | [About Us](#) | [Contact Us](#)
[Browse/Download Product Catalogue as PDF](#)

Bakery Service started operations in 1985 repairing, manufacturing and servicing bakery equipment.

During the years our product range has expanded, far beyond that used in the Bakery industry.

It was decided a second trading name **FOOD HARDWARE** should be introduced to the sales and marketing of all our products related to the food industry.

We sell racks, benches, pots, pans, stirrers, timers, thermometers, scrapers, bowls, crockery, etc... any item used to prepare food we supply it to you the professional in the food preparation industry.

We are constantly improving our range and if you don't see it on this website, please contact our showroom and we will endeavour to help you with your request.

We have a large range of equipment and utensils on display at our Showroom at 49 Railway Street, Yennora where you can buy on a walk in basis.

FS EXTRA

Data sheet

PRODUCT DESCRIPTION

FS EXTRA is latest generation food-safe grease. Constructed using pure, non-toxic, synthetic base oils, combined with PTFE and a complex mix of antioxidant and EP packages, making FS Extra a versatile tool for use in many applications for many industries.

PHYSICAL CHARACTERISTICS

Colour	Translucent/white
Odour	None
Drop point	Non-melting
Consistency	NLGI No2
Penetration	280
Temperature range	-40 to 260°C wet condition (PTFE up to 340°C)
Water resistance	100% (hydrophobic base oil and thickener)
Lubricant solids	PTFE

PRODUCT BENEFITS

FS Extra is completely resistant to salt water and high humidity environments.

FS Extra is dielectric and can be used to protect electrical equipment from ingress of water.

FS Extra lubricates bearings, chains and sliding surfaces including plastic bearings and runners.

FS Extra has a wide temperature operating range

FS Extra is clean food safe lubricant.

METHOD OF USE

FS EXTRA is available in bulk and aerosol form. Application of bulk i.e. cartridges is by grease gun. Application of aerosol, spray 15 to 20cm from surface. Note, delivery from aerosol is in fluid form product then thickens to fully rated No2 grease allowing penetration into chain links etc.

DECORATING UTENSILS & EQUIPMENT

Decorating Tips *All tips work with standard bags and couplers, unless otherwise indicated.*

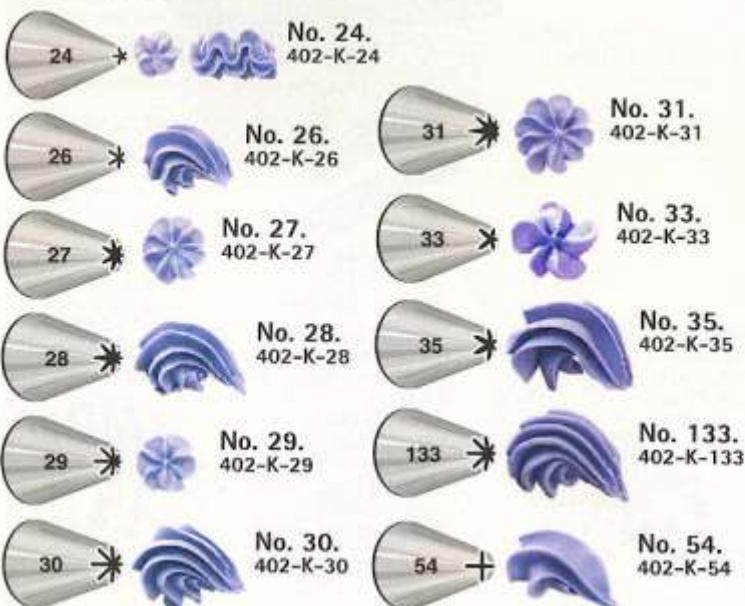

Round Tips

Outline, lettering, dots, balls, beads, stringwork, lattice, lacework.

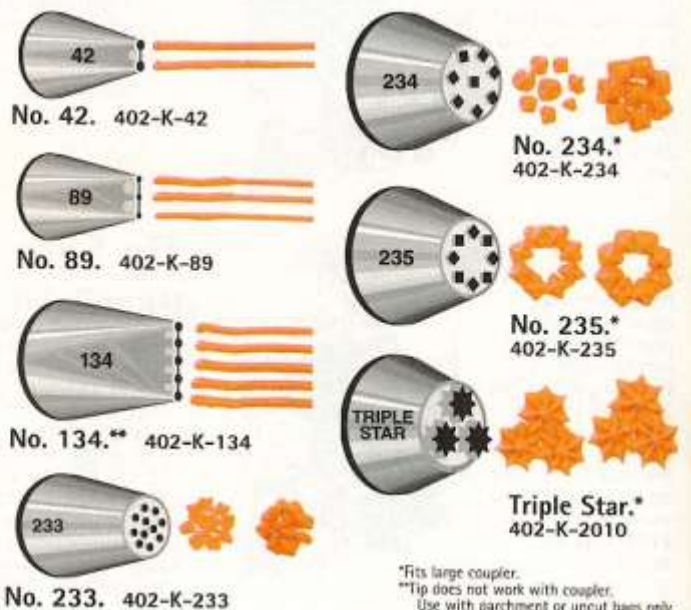

Closed Star Tips

Create deeply grooved shells, stars and fleurs-de-lis.

Multi-Opening Tips

Rows and clusters of strings, beads, stars, scallops.

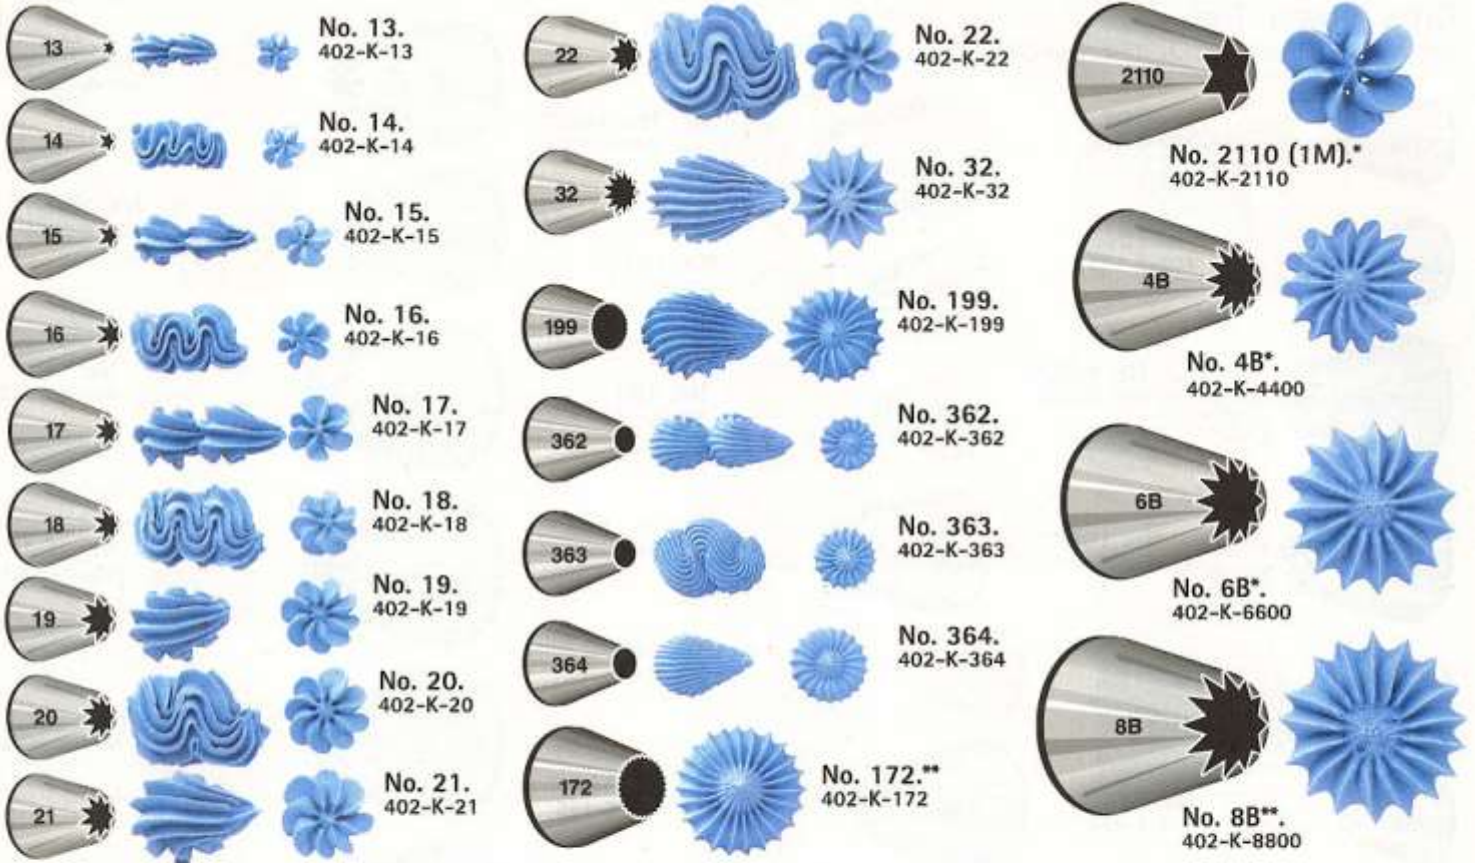

*Fits large coupler.
**Tip does not work with coupler.
Use with parchment or uncut bags only.

DECORATING UTENSILS & EQUIPMENT

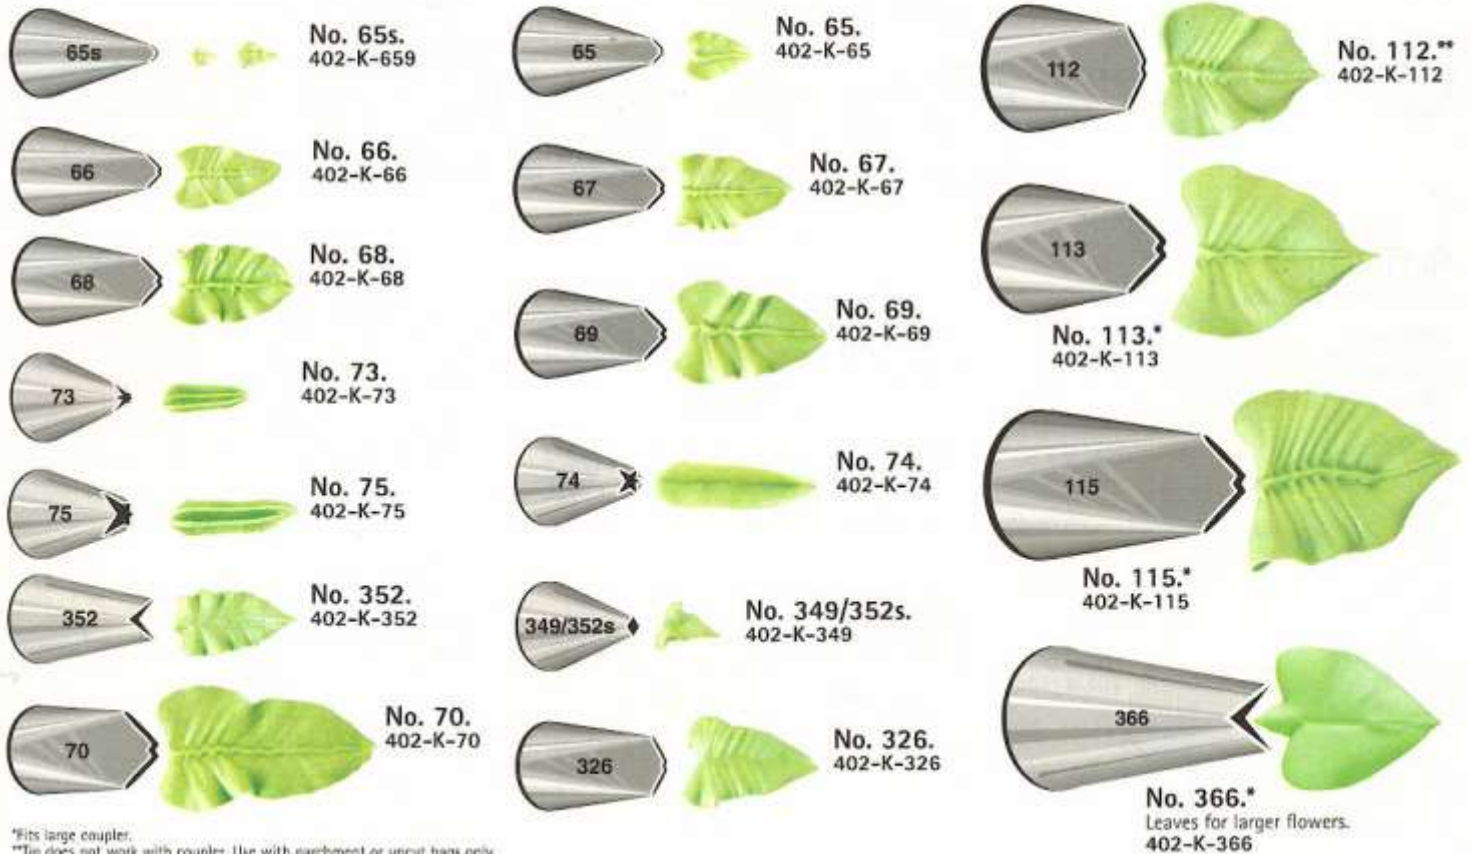

Open Star Tips

Star techniques and drop flowers; the finely cut teeth of 199 thru 364 create decorations with many ridges; use 6B and 8B with pastry dough too.

Leaf Tips

So realistic! Ideal for shell-motion borders too.

*Fits large coupler.

**Tip does not work with coupler. Use with parchment or uncut bags only.

DECORATING UTENSILS & EQUIPMENT

Decorating Tips All tips work with standard bags and couplers, unless otherwise indicated.

Drop Flower Tips

Small (106-225); medium (131-194); large (2C-1G) great for cookie dough too.

- Handle is ergonomically shaped to give the best grip and is fitted with watertight control buttons (photo 1 below).
- Models are fitted with safety button (A), on-off control button (B) and if continuous operation is required lock button (C) (photo 2 below).
- The “Bell” is easily removed without the use of any tools and is double sealed for watertightness guaranteeing hygiene and long life.
- The knife is one piece stainless steel and has been overmoulded to give maximum hygiene. The design of the knife gives optimum speed and quality of cut (photo 3 below).

Spray Guns (KREA Swiss)

<p>Multi Purpose</p> 	<p>The multiSPRAY (LM25):</p> <p>Our most versatile all rounder. The chefs` favourite for applying egg, oil, butter, glaze, fondant, chocolate mix, marinades and sauces etc. Bakers love it for the ease of greasing baking sheets & tins.</p> <p>Main Users: chefs, bakers Viscosity*: max 80 DIN/sec Delivery Rate*: 250g/min (water)</p>
<p>For Volume</p> 	<p>The volumeSPRAY (LM45):</p> <p>For higher volumes spraying of medium to thick materials from a much larger container. Widely used for egg and glaze. Larger piston capacity than the multiSPRAY (LM25) - too powerful for light oils.</p> <p>Main Users: larger production areas Viscosity*: max 100 DIN/sec Delivery Rate*: 350g/min (water)</p>
<p>NEW</p> <p>For Oils</p> 	<p>The oilSPRAY (LM2):</p> <p>Designed for spraying thin to medium materials such as oil and water. Configured to deliver a volume of as low as 80g/min. Lighter, quieter and minimal overspray compared to more powerful guns.</p> <p>Main Users: fast food, pizza, bakery Viscosity*: 18-36 DIN/sec Delivery Rate*: 80-140g/min</p>
<p>NEW</p> <p>For Chocolate</p> 	<p>The hotCHOC (LM3):</p> <p>This innovative heated chocolate sprayer has been designed specifically to spray a warm mixture of 50% chocolate & 50% cocoa butter: finishing, velvet, moulds, speckling pralines, cakes etc. Heating & insulation reduces nozzle clog.</p> <p>Main Users: chocolate artisans & pastry chefs Viscosity*: 20-28 DIN/sec Delivery Rate*: 120-200g/min</p>
<p>NEW</p> <p>Less Mess</p> 	<p>The sprayBOX:</p> <p>Limits spread of spray, reduces cleaning. Simple to assemble and large enough to rotate a standard baking tray inside. Saves space and money compared to an industrial built in spraying unit. Swiss quality, hand made metal base & frame. Light reflecting & easy to clean fabric.</p> <p>Main Users: all spray gun users</p>

Produced in Switzerland, KREA Swiss products are renowned for their reliability, a result of their engineering and component quality and testing 100% of our sprayers before they leave the factory. They are packed with quality features and are designed specifically for the professional user. Those components in contact with food are certified as food safe. The sprayers are also easy to take apart for thorough hygienic cleaning.

Our goal is to provide high quality, reliable and innovative spraying solutions that help make the lives of professional users that little bit easier - something we`ve been doing successfully since the 1940`s.

Our expanding range of food preparation spraying solutions provide bakers, chefs, fast food chains and chocolate artisans with a range of products that allows them to work quickly and efficiently, saving time and reducing material waste.
